· C. Snider called the meeting to discuss the list of repairs needed at the Community Center. The Code Enforcement Officer has closed the deck until repairs can be made to the foundation of the deck. He is recommending replacing the main support beams, the decking and railings. It was also discussed to move the back stairs to the end of the deck closest to the parking lot.

- The roof also needs the shingles and ice and water shield replaced, C. Snider wants and idea of how much these things will cost so that both towns can put money in their 2020 budgets and the repairs can be done next spring.
- The Code Enforcement Officer has offered to mark up the plans of the building and consult with a contractor to get an estimate so that we will have a figure to us in the budget.
